

Pressure Sewerage Code of Australia

In regard to the construction of pressure sewerage systems and associated infrastructure, Part 3: Construction of the Pressure Sewerage Code of Australia is not adopted by the Power Water Corporation and all construction shall be carried out in accordance with the relevant sections of the following Power Water Corporation publications:

- ❖ Water Supply and Sewerage Construction Master Specification;
- ❖ Water Supply and Sewerage Infrastructure Products Manual;
- ❖ Power and Water Standard Drawings;
- ❖ Pressure Sewerage Code of Australia Part 4 Standard Drawings (to the extent noted in Part 4 to this supplement).
