

Steve Beagley

A leader in sustainable living

Since he began working with the community in the area of sustainable living in 2002, Steve Beagley has audited over 300 Darwin, Palmerston and rural area homes.

Steve has trained more than 20 new auditors and has served on the COOLmob committee for many years.

He has contributed to the development of audit tools, COOLmob fact sheets, publications, submissions, research, television and radio advertisements, strategic plans and staff training. He has helped on stalls and presented educational lectures.

Thanks to Steve's electrical engineering expertise, COOLmob has established a new program to audit public benevolent institutions. Steve has researched and written the COOLmob Greenhouse Friendly Hardware booklet and is writing COOLmob's Tropical Building Design booklet.

Since he began working with the community in the area of sustainable living in 2002, Steve Beagley has audited over 300 Darwin, Palmerston and rural area homes.
