

## Cable Location for Emergency Repairs and Callouts

### Water Service Work Instruction

Hazards	Personal Protective Equipment	Tools & Equipment
N/A	N/A	N/A

This instruction sheet outlines the process taken for Cable Location in Emergency situations. This is to ensure the safety of all personnel engaged on such work activities as well as to reduce the risk of damage to infrastructure or interruption of services.

This is to be adopted by all PWC employees and contractors employed by PWC.

#### Cable Locations for Normal and out of Hours Emergencies

2. Place a call to Hudson Creek System Control on the Emergency Number – 1800 245 090 – to request a cable location.
3. System Control will then arrange for the line location crew to attend site.
4. ALL Emergencies are to be logged through System Control.
5. During business hours all **non- urgent** cable locations are to be organised through DBYD on the 1100 number.
6. No work is to commence until the cable location crew has attended and inspected the site, located the cables and issued a permit where required.
