

**EVENT 3: 05/09/2017 Unplanned Islanding Event:**

- The Preliminary and final Fault Reports have not been issued. This ASPrice Change Notice involved only analysis to determine if Territory Generation were not providing all ancillary services that EDL would otherwise pay Territory Generation for their provision.
- Pre-event P1 and P3 were online.
- At 07:51 Channel Island Bus 3 tripped. Pine Creek and Katherine were islanded together. P1 and P3 tripped, resulting in the Pine Creek – Katherine Island black.
- K1, K2 and K4 were started between 08:24 and 08:59.
- P1 started at 10:05.
- P1 was shutdown at 11:08 to allow easier system restoration.
- System was restored to grid configuration at 11:31.

It is the determination of System Control that Territory Generation was not providing all ancillary services and EDL were providing Frequency Control Ancillary Services to the Pine Creek – Katherine Island for the duration P1 was online during the event. It would be unreasonable for EDL to pay Territory Generation for Ancillary Services EDL provided, thus the ASPrice is adjusted interval by interval to accommodate ASPrice of \$0.00 for the duration of the event.

**Table 1: Event 3 ASPrice changes**

<b>Interval Start Time</b>	<b>Interval End Time</b>	<b>Number of Interval</b>	<b>ASPrice (\$/MWhr)</b>
05/09/2017 10:00	05/09/2017 11:30	3	\$0.00
