**EVENT 11: 05/01/2018 – 18/01/2018 Unplanned Islanding Event:**

- This ASPrice Change Notice only assessed if Territory Generation were not providing all ancillary services that EDL would otherwise pay Territory Generation for their provision.
- At 16:35 on 05/01/2018 Pine Creek was islanded and went black.
- In the trading interval for the separation (16:30 to 17:00), Pine Creek units were not started as such ASPrice is not modified.
- P2 supplied load in the Pine Creek Island during the event
- P2 was online during resynchronisation to the grid at 16:38 on 18/01/2018.

It is the determination of System Control that Territory Generation was not providing all ancillary services and EDL were providing Frequency Control Ancillary Services to the Pine Creek – Katherine Island for the duration of the islanding event. It would be unreasonable for EDL to pay Territory Generation for Ancillary Services EDL provided, thus the ASPrice is adjusted interval by interval to accommodate ASPrice of \$0.00 for the duration of the event.
