IES Deemed Load Profile	T-Gen Comment
<ul style="list-style-type: none"> (Page 3) ...subtracted from the total electricity <u>produced</u> by generators in the Darwin-Katherine power system. 	<ul style="list-style-type: none"> Propose to replace produced with sent-out.
<ul style="list-style-type: none"> (Page 4) Rather, planning should be instigated to install statistical interval meters at the entry points for each of these communities. 	<ul style="list-style-type: none"> What is the estimated timeframe for the installation of IES statistic interval meters?
Market Participant Registration Application	T-Gen Comment
<ul style="list-style-type: none"> Dot point 3 of Registration Process: If the Market Operator requests additional information, you must supply requested information <u>within five days</u> of the Market Operators request. 	<ul style="list-style-type: none"> Propose to amend within five days to five business days.
<ul style="list-style-type: none"> Attachment B of the document: The Generator agrees that if they request the Market Operator to calculate Out of Balance <u>energy and price</u> in accordance with the provisions of clause A6.10 of the System Control Technical Code, they will provide the Market Operator with sufficient information to enable that calculation to be undertaken. 	<ul style="list-style-type: none"> T-Gen is seeking clarification on what the requested data is? As we understand, the metering data is already available to the Market Operator.
Settlements Statements & Timetable Procedure	T-Gen Comment
<ul style="list-style-type: none"> Dot point 5.3.2. The Market Operator is to resolve any discrepancies regarding the Preliminary Settlements Statement before issuing a 	<ul style="list-style-type: none"> What is the process for discrepancy resolution and making the

final statement.	final decision?
<ul style="list-style-type: none">• Attachment 1: Generator Preliminary Statement	<ul style="list-style-type: none">• Would a half hourly settlement statement for the whole month being provided as an attachmentment to the generator preliminary statement?
